

# Introducing... careven

NEW, for members of

CareVen is a new health maintenance app, now available to you **free of charge** as a Universal Health Fellowship member, through our partnership with CarynHealth.

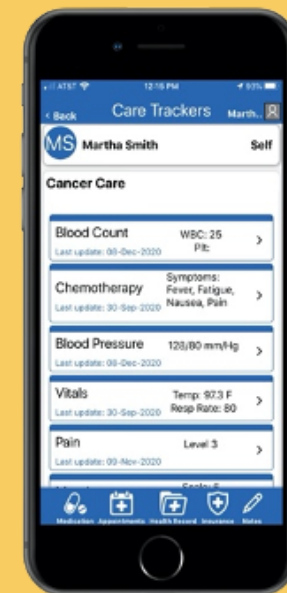

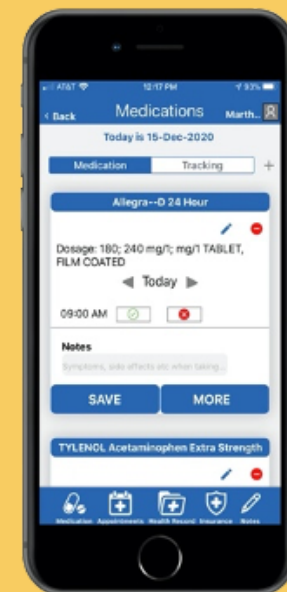

Universal HealthShare is a not-for-profit health care sharing ministry whose members accept a Statement of Shared Faith and Beliefs. To learn more visit: [www.UniversalHealthShare.org](http://www.UniversalHealthShare.org)

## Built for Caregivers

If you have a friend or relative in need of care, CareVen can help.

Register trusted friends and relatives as members of a “care circle,” and all members can exchange information confidentially.

Medical appointments, prescription drug schedules, point of care notes – even non-medical needs and tasks can be recorded for sharing with your care circle.

## Manage All Your Care Needs

### Notes

Through the “Care Notes” section, members of the Care Circle are able to communicate with each other. For example, include a daily update of your caregiving efforts.

Each member of the Care Circle is able to see the note, thus reducing the likelihood of a duplication of efforts.

### Medication Management

Through the “Medication” tab, all members of the Care Circle are able to insert or add medications, doses, pharmacy information, Drs. Name, and relevant contact information.

You can even set up reminders to take your medication at an exact time.

### Upload Documents/ Doctors' Reports

Report and upload documents from a doctor's visit.

## First-Rate Customer Service

### Updates

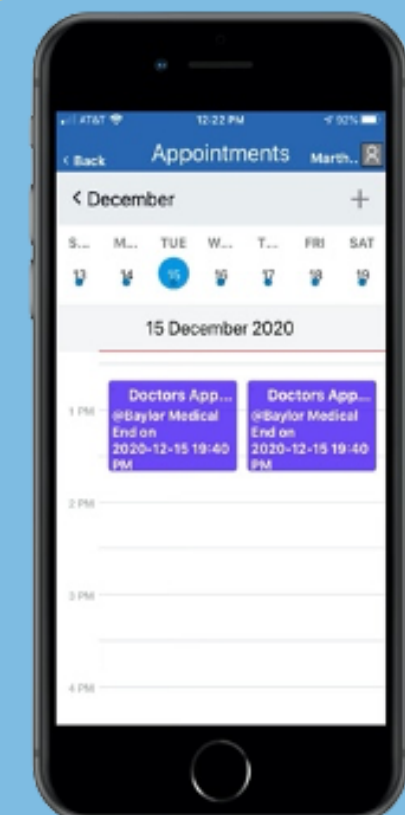

Receipt of all notifications of future versions that will offer upgrade services above and beyond what the basic app provides.

### Phone Support

Provided by CarynHealth Team. Number provided at the time of registration.

### Remote Support

CareVen provides an immediate connection with everyone in the Care Circle. Now, even when you're away, you can virtually check in with your care-receiving loved one as often as you need.
